

DID YOU KNOW?

8 out of 10 businesses lose customers because they take way too long to respond.

Respondly is a tool that quickly connects to your social media and is trained to instantly and accurately reply to customers using text or voice notes that mimic the business owner. It works with Instagram, WhatsApp and other platforms — so you can focus on other parts of your business.

Say goodbye to delayed responses.

Stop losing customers to slow responses.

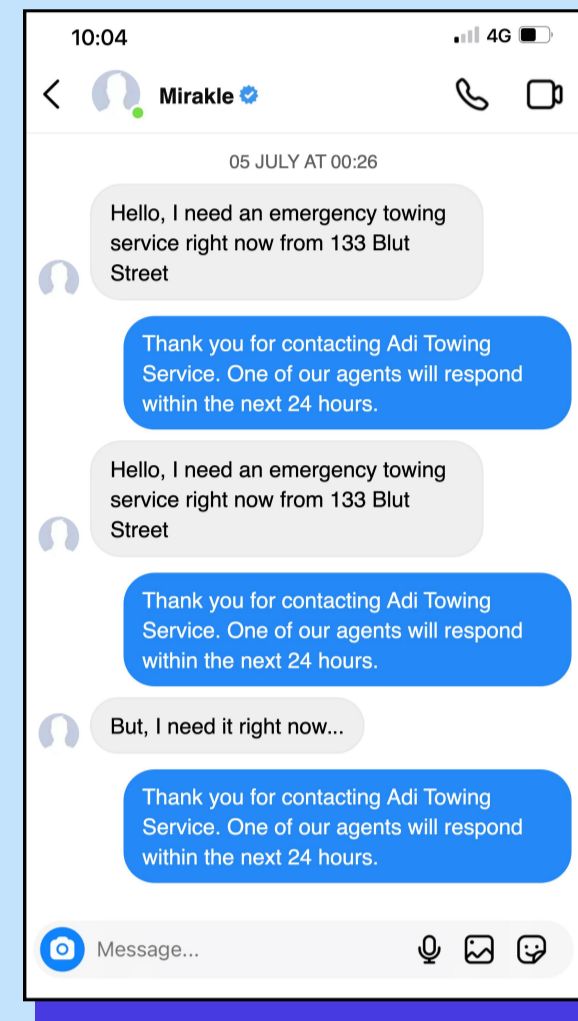

Small business owners struggle to keep up with customer messages. Our AI responds instantly, in your voice, across platforms, so you can focus on running your business without losing that personal touch.

See How It Works

Stop losing customers because you're too busy to respond!

Our software ensures you never miss an opportunity by instantly replying to inquiries in your exact tone and style. Keep your customers engaged, even when you're focused on other parts of the business.

See How It Works

More than just text! Automated Responses that also uses your voice

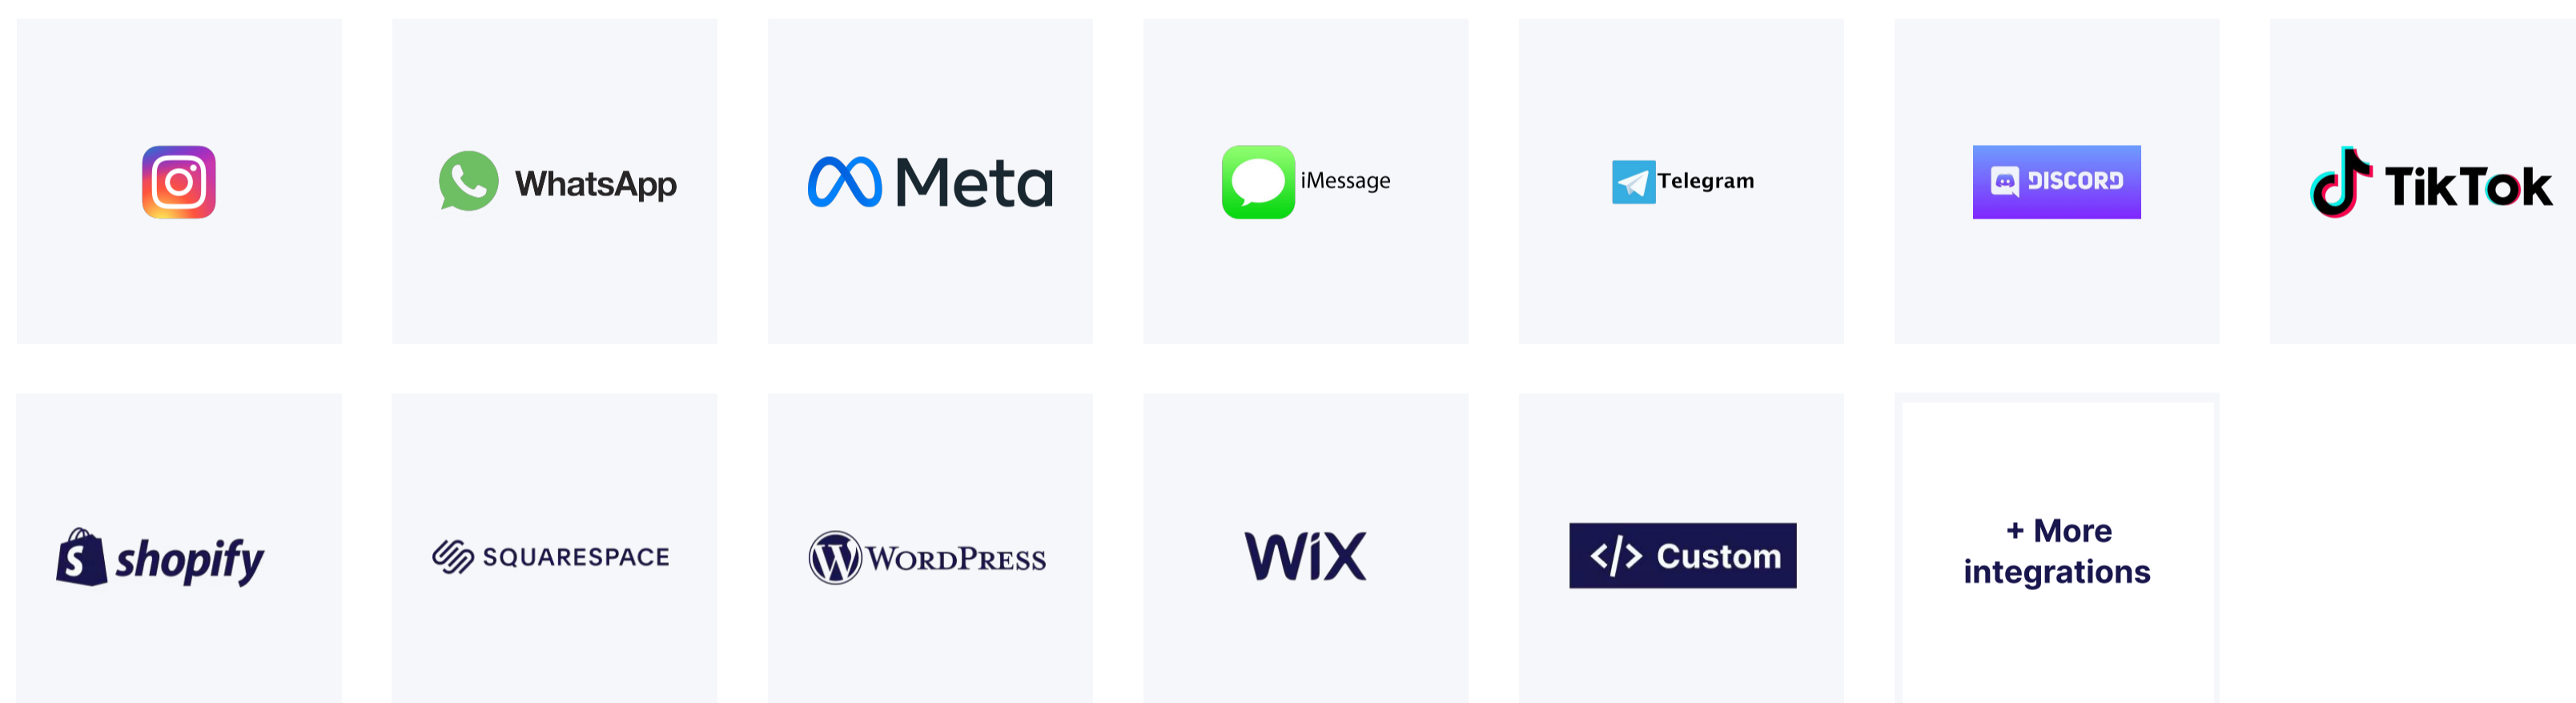

Most automated systems feel impersonal, and only uses text. Interact is trained to respond to your customers just like the actual owner would, in both text and voice format.

Okay, time to take some questions

01 Alright, but what exactly do you do?

Respondly an AI-powered automation tool that can easily be connected to your social media accounts like Instagram, Facebook, and WhatsApp and responds to customer inquiries in your exact tone, style, and even voice, whether through text or voice notes. This way, your customers get personal, real-time replies, while you save time and focus on running your business—all without losing that personal touch.

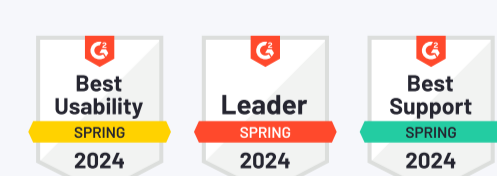

02 Sounds interesting, how does it know how to respond?

03 That's cool, so how much does it cost?

04 Which social media accounts will I be able to connect?

Hear it from our satisfied customers

Our impact speaks for itself with customers reporting more than a 400% increase in inquiries with 80% sales conversions.

Testimonial from Samir Mohammad, Restaurant Owner at Kabul Afghan Cuisine. He says he was overwhelmed with customer calls until he started using Respondly, which handles all inquiries instantly in his voice, allowing him to focus on his business. He compares it to having a 24/7 assistant that sounds just like him.

Testimonial from Adèle Aubry, Ecommerce Manager at The Bradery. She says her business was growing fast but couldn't afford more staff. Respondly's software automated her responses, allowing her to scale without extra costs. It was a game changer.

Testimonial from Rhea Ball, Store Owner at Rhea's Rav. She says it was just my h... running a small site with two ki... couldn't keep u... media inquiries. Respondly we v... focus on the fa... miss out on sale...
